You are invited to attend an informal drop-in event to view draft plans for the proposed residential redevelopment for the vacant Harnham Business Park site.

The purpose of the drop-in event is to let the community know more about the draft proposals for the site.

Representatives of the site owners and their consultant team will be on hand to explain and discuss the proposals with you.

After the information event the proposals will be finalised and submitted as an outline planning application to Wiltshire Council. The community will then be able to engage directly with Wiltshire council as part of the formal planning process.
